

Maintaining Granite Countertops

- For daily maintenance:
 - Wipe down countertop using warm water and a few drops of dish detergent or antibacterial detergent and a soft cloth.
 - Clean up any spills immediately.
 - Do not place hot pans directly on countertops.

- For heavy duty maintenance:
 - Use a heavy-duty stone cleaner and degreaser to effectively remove dirt and grease from neglected granite.
 - Use a stain removing poultice for tough stains.
 - Reseal when the granite starts to lose its shine (Normally every 2-3 years).
Follow directions on the sealer label.
